

About us @ my_travelfamily

We are experts in traveling with kids, since we have always traveled worldwide with our 6 kids.

We are a big family with 6 kids, based in the Netherlands, who love to travel and inspire more families to travel and adventure. We are professional content creators who provide high quality photography and video's. We travel worldwide, and we love to explore, adventure, hike, roadtrip and relax at great accommodations. We have created a great community with likeminded traveling families, who love to show their kids the world. Our mission is to inspire other families to travel, explore, get outside, adventure and make everlasting memories together. We provide bucketlist itineraries, family travel tips, an informative blog and inspiring content.
